Experiment 2

Method

Participants

A total of 374 subjects completed the online experiment (see Table 1 for a breakdown of the gender and age of the sample). Subjects were recruited from both voluntary participation websites such as Prolific Academic (where they received payment at the rate of £5/hr), and via the in-school research participation system (where they received course participation credits).

To meet our YA requirements, all participants were required to be aged between 18-59 years (obtained range: 18-59 years). As our experiment involved typing the English labels for a range of image stimuli, we also asked subjects whether English was their first language; all but one participant indicated that English was indeed their first language (99.73%).

Table 1: Gender and age (*sd*) of the current sample.

Gender	N	Age	
Female	197	33.18	(11.26)
Male	170	33.23	(10.28)
Non-binary	2	23.50	(-)
Unspecified	5	29.40	(6.11)
Total	374	33.10	(10.76)
